Cold Deck

LED lighting system for multi-deck merchandisers

Cold Deck lighting system is designed to optimize visual appeal of produce, meat, and dairy cases (multi-deck merchandisers). Extends shelf life of perishables through reduced heat output.

• Eliminates the need to de-merchandise cases while upgrading

• Illuminates product facings with crisp, uniform light dispersion

• **Up to 77% energy savings compared with typical fluorescent fixtures**

Dongle – Powers lights through existing fluorescent lamp holders. Patent pending feature eliminates the need to de-merchandise.

Lamp holder bands – Attaches the dongle to the existing lamp holder.

Rare-earth magnets – Secures lights to shelves without the need to be mechanically affixed.

Stand-off clips – Snaps together to adapt to different canopy depths and angles.

Class 2 rating – Converts case to a low voltage system.
