

## V Series 2

### High output white – standard can depths

V Series 2 will make your brand shine brighter. V Series 2, available in 7200 K colour temperature, is the high output companion to original V Series whites. With 50 lumens per module, it's the perfect solution for creating crisper, whiter signs. Because of its extra brightness, V Series 2 also works great behind perforated films.

- 7200 K colour temperature
- 50 lumens per module
- Constant Current Technology (CCT)
