FlexiBRITE
Flexible LED tubing
SloanLED®
Leaders in LED Technology

"Welcome" sign in Brooklyn Heights measuring 15' high, 80' long, and populated with 500 ' of Ruby Red FlexiBRITE.

Flexed into shape.

FlexiBRITE adds neon appeal to any LED-lit sign with the world's first completely flexible LED tubing. FlexiBRITE is field bendable, providing the freedom to create an endless array of profiles, contours and patterns on the fly. Ideal for exterior and interior lighting applications such as sign perimeters, letters, symbols, accent stripes, borders, and open-face channel letters.

- Daytime color when non-illuminated
- Optically modified silicone extrusion: UV stable, hydrocarbon insensitive, and non-fading
- Extremely flexible LED tubing
- Convenient mounting clips and mounting tracks
- Product can be cut to custom lengths in the field

Developers wanted to reinforce the message that Brooklyn welcomes new visitors and businesses by replacing the 50-year-old Watchtower sign with the word "Welcome" in celebration of Panorama Brooklyn becoming an accessible and vital part of the Brooklyn waterfront.

This bright, red beacon of hospitality greets travelers as they cross the Brooklyn Bridge and delivers 60% higher energy efficiency than classic neon.

Classic appeal.

Classic colors—Ruby Red, Citrus Orange, Noviol Gold, Emerald Green, Bromo Blue, and Snow White —retain their hue in the daytime and add the glitz of neon nostalgia while still delivering the high-efficiency, long life, and dependability you've come to expect from SloanLED.

There's no substitute for quality.

Other LED manufacturers use cheaper components and maximize the potential brightness of their products at the expense of longevity; overdriving the LEDs for instant gratification while sacrificing sustainability and endurance. SloanLED uses the highest caliber components in order to offer you a superior product with the longest lifespan.
